GENERAL COMMENTS

- ◆ Rite Aid processes 214s ONLY for inbound shipments to distribution centers. Do not transmit 214s for outbound shipments from our DCs or shipments to Rite Aid stores.
- ◆ The following pages detail the attributes of each of the above segments as required by Rite Aid.
- ◆ It is Rite Aid's policy to return a 997 within 24 hours. It is your responsibility to follow up on overdue acknowledgments. A functional acknowledgment acknowledges receipt of a transaction and ANSI X12 compliance errors (if any). **The 997 returned "without errors" is NOT an indicator that the data content of a 214 is in compliance with Rite Aid's application requirements.**
- ◆ In compliance with Transportation Department requirements, only one AT7 Shipment Status Segment is allowed per 214 transaction.
- ◆ "Rite Aid's DUNS+4 /Distribution Centers: The link contained in these guidelines will provide listing of all Rite Aid DC ship-to-locations addresses and phone number , DEA number, DUNS+4 number and preferred LTL carrier. Also indicated if applicable will be any satellite location of the primary DC " DC listings can be downloaded at <http://www.riteaidediservices.com/distribution-centers/>

¹ A separate L11 is required for each purchase order number that is included in the shipment.

² The detail L11 denotes equipment number.
