Rite Aid Corporation 810 Invoice Version 005010 Direct Store Delivery (DSD)

Functional Group ID=IN

## Introduction:

This X12 Transaction Set contains the format and establishes the data contents and requirements for the Direct Store Delivery (DSD) Invoice Transaction (810) Version 05010. The expectation of Rite Aid is that this Invoice transaction will be supported at the item level for both debit and credits. Also, even though you may be supporting the DSD Advance Ship Notice - it is required that the EDI invoice also be exchanged for billing of merchandise.

1. Rite Aid can not process charges at the item level. Roll up any item charges and transmit in a summary level SAC segment.
2. Please contact Rite Aid's EDI Department (717)731-3815 for authorization to transmit any codes that are not recognized above. Sending a code not on the Rite Aid table will cause delays in processing your invoices.

# Rite Aid Corporation <br> RITE 810 Invoice Version 005010 Direct Store Delivery (DSD) 

## General Comments:

## Invoices For Direct Store Deliveries

1. Rite Aid always views the TDS01 invoice amount as a positive number.
2. The TDS01 is the net total plus charges minus allowances. Allowances SAC05 must be positive numbers.
3. The BIG07 value must be "CR" to process an invoice as a credit.
4. Do not send SAC segment - Allowances or Charges in Credit invoices.
5. The TDS01 is the invoice net amount (the amount the trading partner is requesting Rite Aid to pay). Zeros (0) may not be sent in TDS.
6. Do not send zero quantity or zero dollar line items or zero dollar invoices.
7. All quantities and amounts must be sent as positive numbers- negative amounts cannot be processed.
8. The SAC segment for Charges and Allowances cannot be processed at item level for Debit Invoices. Charges and Allowances must be sent in a summary level SAC segment.
9. All DSD invoices are expected with detail. Non-required segments are accepted and will not be used in Rite Aid's AP systems.
